Summer Discovery Day Camp

June 21 - August 13, 2010

A Summer of Exploration Our Global World and Beyond!

Keep this section for your records.

Space 6/21-6/25

To infinity and beyond! Blast off with us as we explore the planets, stars and galaxies. Could there be life out there?

Islands 6/28-7/2

Cruise around the world discovering strange creatures, mysterious statues and fascinating cultures on isolated islands.

Caves/Canyons 7/5-7/9

Hold onto your flashlight as we explore deep canyons and dark caves filled with nocturnal creatures, stalagmites and underground rivers.

Polar Regions 7/12-7/16

Penguins, polar bears, muskoxen and walrus - put on your parka for this adventure to the lands of ice and snow.

Deserts 7/19-7/23

Is that a mirage I see? Search for an oasis as we journey through hot deserts looking for meerkats, tortoises, and burrowing owls. Watch out for the cactus!

Tropical Jungles 7/26-7/30

Swing through the trees from vine to vine as we venture through the humid rainforest looking for rare species of flowers and animals.

Oceans 8/2-8/6

Let's go deep sea diving and explore a world filled with coral reefs, sharks, and giant squid. Get in your submersible to go even deeper where creatures make their own light in the pitch dark.

Mountains/Forests 8/9-8/13

Hike through mountain forests and scale the highest peaks. Keep your binoculars handy as we might get a glimpse of grizzly bears or mountain sheep.

Come with us on a journey of exploration around the world and beyond! We'll travel to the outer galaxies, then return to earth to explore the wonders of our own planet from the top of Mount Everest to the bottom of the Atlantic Ocean; from the blazing hot Mohave Desert to the chilling temperatures of the South Pole. Our mission is to learn about the fascinating variety of life that exists in different geological regions. Children will learn about scientists and explorers and the amazing things they have discovered.
